

Timeless Allure

Dr Tracy A Miller

Permanent Makeup

Addendum to Informed Consent **Previous Permanent Makeup Release**

I, (print) _____, have been informed that there is no guarantee of results working over previous permanent makeup. The presence of old pigment in the skin can have unpredictable results. Final healed color, color shifts as the skin fades over time, and “patchy” areas of pigment fading are possible and often can not be anticipated.

I agree to hold _____ (practitioner) and/or her associates harmless if above said risks occur. I take full responsibility and accept that this could happen. I further understand that all services performed are non-refundable. In addition, often doing corrective work over old ink requires additional sessions at additional cost.
